

# *PURDUE CS EXCELLENCE SPEAKER*

**APRIL 7**

**10:30 AM**

## *MICHAEL BERNSTEIN*

### *GENERATIVE AGENTS: INTERACTIVE SIMULACRA OF HUMAN BEHAVIOR*

Michael Bernstein is an Associate Professor of Computer Science at Stanford University, where he is a Bass University Fellow, Senior Fellow at the Stanford Institute for Human-Centered Artificial Intelligence, and Interim Director of the Symbolic Systems Program. His research focuses on designing social, societal, and interactive technologies. His research has been reported in venues such as The New York Times, TED AI, and MIT Technology Review, and Michael himself has been recognized with an Alfred P. Sloan Fellowship, the UIST Lasting Impact Award, and the Computer History Museum's Patrick J. McGovern Tech for Humanity Prize. Michael holds a bachelor's degree in Symbolic Systems from Stanford University, as well as a master's degree and a Ph.D. in Computer Science from MIT.
