

4565: Computing Foundations for a Digital Age

Unit 2

Cyber Threat Scenarios Worksheet

Group Members: _____

Date: _____

Instructions:

Read each scenario carefully. As a group, identify the type of cyber threat and suggest a recommended solution or action step to stay safe.

Scenario 1:

You receive an email that appears to be from your school, asking you to reset your password through a suspicious link.

Type of Threat: _____

Solution: _____

Scenario 2:

After downloading a free game, your device starts acting strangely and files begin disappearing.

Type of Threat: _____

Solution: _____

Scenario 3:

A pop-up message appears claiming your computer has a virus and instructs you to “click here to fix it.”

Type of Threat: _____

Solution: _____

Scenario 4:

A classmate downloads an app that requests access to their photos, contacts, and location—even though it’s just a calculator.

Type of Threat: _____

Solution: _____
