Name: _____

Project Title: _____

Team Members: _____

Part 1: Project Summary

- In 2–3 sentences, describe your data project. What question did you ask, and what did you do to answer it?

Part 2: Data Process

- What data did you collect or use?

- How did you clean the data?

- What tools did you use to analyze or visualize it?

- What did you learn from the data?

Part 3: Presentation Format

- ☐ Poster
- ☐ Slide Deck
- ☐ Flip Video
- ☐ Infographic
- ☐ Other: _____

- Why did you choose this format?

Part 4: What I'm Most Proud Of

- What part of this project are you most proud of and why?

Peer Feedback Form

Presenter Name(s): _____

Your Name: _____

- On thing I learned from this project?

- On think I think they did really well?

- On idea or question I'm still thinking about?

Exit Reflection

Name: _____

- What was the most interesting thing you discovered during this unit?

- What was the biggest challenge you faced in your project?

- What surprised you about working with data?

- What's one skill you used that you think will help you in another class or real life?

Showcase Rubric

Criteria	3 – Excellent	2 – Satisfactory	1 – Needs Improvement
Clarity of Question	Clear, focused, and relevant	Mostly clear	Unclear or vague
Data Collection	Thoughtful, appropriate, and explained	Basic effort shown	Lacks clarity or effort
Data Cleaning & Analysis	Clearly demonstrated and accurate	Partially demonstrated	Not demonstrated or inaccurate
Presentation Format	Engaging and effective	Basic but clear	Confusing or incomplete
Reflection & Insight	Shows thoughtful reflection and insight	Some insight shown	Minimal or missing reflection
