

4565: Computing Foundations for a Digital Age

Unit 5

Usability, Accessibility, and Ergonomics Station Rotation

Name: _____ Date: _____

Instructions:

As you rotate through the stations, use this worksheet to record your observations. Evaluate each tool or app using the guiding questions, and then rate its overall usability.

Station 1: _____

- Was this tool/app easy to learn how to use? Why or why not?

- Was it comfortable or awkward to use physically (ergonomics)?

- Could everyone use it equally well (consider accessibility)?

- One improvement I would suggest:

Usability Rating (1 = Hard to Use, 5 = Very Easy to Use):

Circle one → 1 2 3 4 5

Station 2: _____

- Was this tool/app easy to learn how to use? Why or why not?

- Was it comfortable or awkward to use physically (ergonomics)?

- Could everyone use it equally well (consider accessibility)?

- One improvement I would suggest:

Usability Rating (1 = Hard to Use, 5 = Very Easy to Use):

Circle one → 1 2 3 4 5

Station 3: _____

- Was this tool/app easy to learn how to use? Why or why not?

- Was it comfortable or awkward to use physically (ergonomics)?

- Could everyone use it equally well (consider accessibility)?

- **One improvement I would suggest:**

Usability Rating (1 = Hard to Use, 5 = Very Easy to Use):

Circle one → 1 2 3 4 5
